Nitrous Oxide Analgesia Instructions

You must have a completely empty stomach. IT IS VITAL THAT YOU HAVE NOTHING TO EAT OR DRINK INCLUDING CAFFEINE DRINKS FOR 5 HOURS PRIOR TO YOUR USE OF NITROUS OXIDE. TO DO OTHERWISE MAY BE LIFE-THREATENING!

HOWEVER, it is important that you take any regular medications (high blood pressure, antibiotics, etc.) or medications provided by this office, except other medications that may cause further drowsiness or sedation, using only a small sip of water.

Consent *(Must be signed in the office)*

My signature below signifies that all questions have been answered to my satisfaction regarding this consent and I fully understand the risks involved of the proposed procedure and sedation.

I also certify that I speak, read and write English.
